Dera Ismail Khan, KPK, Pakistan

SUMMARY

A determined fresher full stack developer with over 2 year of practice efficiently developing websites and applications. I have strong foundations in both frontend and backend technologies, including JS, React, Next JS, Express, NodeJS, MongoDB and MySQL with strong focus on creating seamless user experiences. With my experience, I'm committed to deliver quality code and constantly learning to keep up with the latest trends in the tech world.

EDUCATION

BS Computer Science:

Govt. College No.1 Dera Ismail Khan

06/2023 - 06/2027 D-I-Khan, Pakistan

- Bachelor of Science: Computer Science,
- Expected completion in 2027
- Govt. College No.1 Dera Ismail Khan, Pakistan

EXPERIENCE

EAST & WEST:

Paharpur, Dera Ismail Khan

07/2023 – Present

I have 1.5 years of experience as a full-stack developer at a fast-paced startup, where I designed and deployed scalable web applications. Using Next.js, Tailwind CSS, MySQL, PostgreSQL, and MERN stack, I handled end-to-end project lifecycles while collaborating with cross-functional teams. This experience strengthened my skills in agile development, problem-solving, code optimization, and delivering secure, user-centric solutions under tight deadlines.

SKILLS

Bootstrap	Tailwind CSS	JavaScript
React JS	Next JS	Git & GitHub
TypeScript	AWS	RESTful APIs
PostgreSQL	MERN	Vercel & Netlify

PROJECTS

Attendance Portal

10/2024 - 10/2024

Dera Ismail Khan, Pakistan

The Attendance Portal is a full-stack project developed using Next.js and MySQL, designed for efficient attendance management. The portal includes features for marking attendance, managing leave requests, tracking attendance records, profile picture editing, leave approvals, and grading. Both user and admin panels are implemented, allowing streamlined access to attendance-related functionalities.

Ecommerce Website

09/2024 - 10/2024

Dera Ismail Khan, Pakistan

This e-commerce website is built using Next.js, integrating MySQL for product details and contact forms, Cloudinary for image storage, and Stripe for payment processing. It features user authentication, an admin panel for product management, and a responsive design, with key functionalities including user sign-up and login, and secure payment handling.

Portfolio

07/2024 - 08/2024

Dera Ismail Khan, Pakistan.

This portfolio project showcases my web development skills, built using modern web technologies. It includes a ReactJS based frontend that displays portfolio content and a NodeJS based backend that manages server side operations.
